ACCIDENTAL INJURY INSURANCE

# You can't prevent every accident—but you can protect yourself and your family with **ACCIDENT**assure.<sup>SM</sup>

## OUR ASSURANCES

- Benefits are paid directly to you regardless of any other insurance you have.<sup>1</sup>
- Benefits have no lifetime maximums.
- Rates won't increase because you use your policy.<sup>2</sup>

ACROSS THE U.S., ACCIDENTS HAPPEN AT AN ALARMING RATE. **EVERY SECOND OF EVERY DAY**, SOMEONE IS DISABLED FROM AN ACCIDENTAL INJURY. AND **1 IN 9** AMERICANS—NEARLY **34.3 MILLION** PEOPLE—RECEIVE MEDICAL ATTENTION FOR AN INJURY ANNUALLY.<sup>3</sup>

### According to the National Safety Council, falls are the No. 1 cause of all accidental injuries in the U.S.<sup>3</sup>

An accidental injury<sup>4</sup> is an injury to your body solely caused by and resulting from a sudden, unexpected and unforeseen event. An accident<sup>5</sup> can happen anywhere at nearly any time. You could trip while walking on a sidewalk or playing basketball. It's not uncommon to fall while walking down stairs or while riding a bike, playing basketball, tending to home repairs and many other instances. Bodily injuries that result from trips and falls can be painful—and can cause unexpected medical bills for diagnosis and treatment.

If you're in an accident, your major medical plan may cover most of your expenses. But you're likely to be responsible for out-of-pocket expenses such as deductibles and copays, plus medical appliances and transportation.

## Gain the extra protection you need with **ACCIDENT**assure.<sup>SM</sup>

<sup>1</sup>Unless otherwise requested by you or required.

<sup>2</sup>Your rates cannot be increased unless all rates of the same kind are raised in your state.

<sup>3</sup>Source: National Safety Council, Injury Facts, 2010 Edition. These facts represent the U.S. population, are provided for information only and do not imply coverage under the policy or endorsement of the company or policy by the National Safety Council.

<sup>4</sup>An accidental injury means all bodily injuries solely caused by and resulting from an accident. Accidental injury does not include injury as a direct or indirect result of bodily or mental infirmity or disease in any form or medical treatment of any kind. An example of bodily infirmity is an allergic reaction, such as a bee sting. **In Idaho**, an accidental injury means "all bodily injuries sustained by the insured person that is the direct cause of the condition for which benefits are provided, independent of disease or bodily infirmity or any other cause, and that occurs while the insurance is in force." **In Maine**, "accidental injury sustained by the insured person that is the direct cause of the condition for which benefits are provided and that occurs while this policy is in force"

<sup>5</sup>An accident means a sudden, unexpected and unforeseen event. **In Idaho**, an accident means "a sudden, unexpected event." **In Oklahoma**, an accident means "a sudden event caused by external means." **In Tennessee**, an accident means "an unintended, unexpected event."

# Choose the plan that's right for you.

Every accidental injury—from bumps and bruises to broken bones—requires different care and treatment. To help protect you and your family, ACCIDENT<sup>assure</sup> offers benefits for today's most common accidental injuries, whether they happen on the job or off. Plus, the policy lets you choose from two levels of coverage.<sup>1</sup>

## **PHYSICIAN'S OFFICE ADDITIONAL BENEFIT RIDER<sup>1</sup>**

The Physician's Office Additional Benefit rider provides the flexibility to receive treatment in a number of nonemergency-room medical facilities, such as a physician's office, dentist's office<sup>2</sup> or urgent/immediate care center. With this option, you'll receive an enhanced benefit when you seek care at an approved medical facility after an accident, regardless of the treatment needed or scope of the injury.

*The benefit is payable in one of two ways:*

1) A \$200 benefit is payable to diagnose and treat injuries not covered by the base policy, such as broken natural teeth, sprains, first degree burns and other noncovered injuries. The \$200 benefit pays in addition to the physician's office visit benefit included in the base policy, as shown in example 1.

OR

2) When the physician's office benefit is paid along with other benefits that are covered in the base policy, this rider pays an additional \$50 (instead of \$200), as shown in example 2.

### *Example 1*

INJURY CAUSE	TREATMENT	DIAGNOSIS	BENEFIT	AMOUNT <sup>3</sup>
Fall	Dr. office visit, X-ray (to determine if fractured), and pain medication	Arm pain and NO fracture	Physician's office visit benefit	\$50

## **PUBLIC SAFETY RIDER**

**\$2,000 when a gunshot wound is received in the line of duty**

Law enforcement officers, corrections officers, EMTs, paramedics and firefighters are eligible for this benefit. For the benefit to be payable, treatment must be rendered by a physician in a hospital within 24 hours of the accident.

<sup>1</sup>The injury must be the result of an accident in order for the physician's office visit benefit and the Physician's Office Additional Benefit rider to be payable.

<sup>2</sup>Benefits are not payable for loss contributed to, caused by or resulting from your treatment for dental care or dental procedures, unless treatment is the result of a covered accident. Dental procedures that result from a covered accident are limited to natural teeth.

<sup>3</sup>This information is provided for illustration purposes only. Benefit examples are based on level 2 coverage.

<sup>4</sup>Other benefits may be payable under the policy and may vary by the type of covered accident.

Other terms and conditions apply; ask your agent for details.
